**\*eMDR Module for Infomed9i (HL7 ISCR submission method)**

**Benefits:**

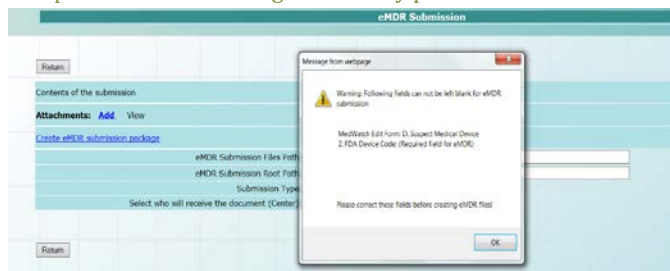

- Integration with current Infomed9i complaint handling allows for XML creation and submission from within incident Regulatory Filing section.
- Submission Status and Acknowledgements from FDA can be viewed from within Infomed incident.

- eMDR Submission Status Report gives Regulatory coordinators a status snapshot of all submissions of any given time frame.

	Number of Incidents
eMDR Outused - Not Submitted	0
eMDR Submitted - Pending Acceptance	0
eMDR Submitted - Failed	0
eMDR Submitted - Accepted	1

- Includes AS2 Server software.
- Submissions are sent on a timer that can be configured for any time.
- Compliance error checking catches any problems with Medwatch *before* it is submitted.

- Any Attachments are embedded within the transmitted XML.
